

The most popular Polish animals from “Hand To Hand with CLIL”

Erasmus+

Eagle

- These are extremely majestic and beautiful birds. They are a symbol of courage, rebirth and strength.
- As a breeding bird, it occurs primarily in the Carpathians from the Tatra Mountains to the Bieszczady Mountains and single pairs in Pomerania and Masuria. Nomadic birds are seen all over the country

- Golden eagles are one of the strongest and fastest birds in the world. In diving, they reach speeds of up to 160 km / h, although they usually fly at an average speed of about 45 km / h.
- Eagles are carnivorous birds. They hunt other, smaller birds, small mammals, and sometimes also fish.
- In total, there are about 60 different species of eagles in the world.

Eagle on the Polish coat of arms

- In Poland, the eagle is of particular importance. Its image is visible both on the coat of arms and on Polish coins.
- The emblem of the Republic of Poland is the image of a white eagle with a golden crown on its head turned to the right, with unfolded wings, with a beak and golden claws, placed in the red field of the shield.

Wisent

- The bison is the largest wild mammal in Europe.
- The population of these animals in Poland is 2,312 individuals.
- The average weight of an adult male European bison is 700 kilograms, but there are individuals weighing almost a ton.

- Bison in captivity can live to the age of 30, but those that occur in the wild can rarely reach this age.
- They are herbivores. Their food is mainly grass and herbaceous plants.
- In 1923, thanks to the initiative of Poles, the International Society for the Protection of the Bison was established.
